**ELECTRIC TRANSMISSION TEXAS LLC REPORT AND ATTESTATION
DEMONSTRATING COMPLIANCE WITH HOUSE BILL 4150**

Electric Transmission Texas LLC (“ETT”) files this Report and Attestation in response to the October 4, 2021 memorandum filed in this Project by the Public Utility Commission of Texas, Division of Compliance and Enforcement. The memorandum required the filing of this Report and Attestation demonstrating compliance with House Bill 4150 by January 14, 2021. Therefore, this Report and Attestation is timely filed.

I. Introduction

As noted in the memorandum, Section 6 of House Bill 4150 requires any electric utility, municipally owned utility, or electric cooperative that owns a transmission or distribution line over a lake listed in PURA § 38.004(b) that is not in compliance with the clearance standards of Rule 232 of the National Electrical Safety Code Standard ANSI (c)(2) in effect at the time the line was constructed to bring the line into compliance not later than December 31, 2021. The memorandum filed by the Division of Compliance and Enforcement required utilities, including ETT to file a report in this project with the following information that is provided in Section II below.

- A declaration that each distribution line above 1 kilovolt or transmission line above 60 kilovolts owned by the utility that crosses a lake listed in PURA § 38.004(b) meets the applicable vertical clearance requirements established in Rule 232 of the NESC Standard ANSI (c)(2).
- The date on which the company verified each line’s compliance with the applicable NESC Standard.
- For each utility that self-identified a line that did not meet vertical clearance requirements in an annual report filed in either Project 50596 or Project 51890, a declaration that each line identified in the annual report meets the NESC Standard.
- If a line over a lake listed in PURA § 38.004(b) does not meet the NESC Standard:
 - The name of line;
 - The name of lake and the county or counties in which the lake is located;
 - A narrative description of actions the utility will take to bring the line into compliance with the NESC Standard; and
 - The date by when the line will be brought into compliance.

Additionally, the memorandum required that each affected utility submit with the report an affidavit signed by an officer of the company who has direct responsibility for distribution or transmission service or construction attesting to the veracity of the information provided in the report. The affidavit of Kip M. Fox, President of ETT is included as Attachment A to this report. Mr. Fox is an officer of ETT with direct responsibility for transmission service and construction for ETT.

II. HB 4150 Report

- 1. A declaration that each distribution line above 1 kilovolt or transmission line above 60 kilovolts owned by the utility that crosses a lake listed in PURA § 38.004(b) meets the applicable vertical clearance requirements established in Rule 232 of the NESC Standard ANSI (c)(2).**

As shown in Attachment B to this report, the transmission lines above 60 kilovolts owned by ETT that cross a lake listed in PURA § 38.004(b) meet the applicable vertical clearance requirements established in Rule 232 of the NESC Standard ANSI (c)(2). ETT does not own any distribution lines.

- 2. The date on which the company verified each line's compliance with the applicable NESC Standard.**

The date on which ETT verified each line's compliance with the applicable NESC Standard is shown in Attachment B.

- 3. For each utility that self-identified a line that did not meet vertical clearance requirements in an annual report filed in either Project 50596 or Project 51890, a declaration that each line identified in the annual report meets the NESC Standard.**

ETT did not self-identify any lines that did not meet vertical clearance requirements in an annual report filed in either Project Nos. 50596 or Project 51890. Therefore, this requirement is not applicable.

- 4. If a line over a lake listed in PURA § 38.004(b) does not meet the NESC Standard:**
 - The name of line;**
 - The name of lake and the county or counties in which the lake is located;**
 - A narrative description of actions the utility will take to bring the line into compliance with the NESC Standard; and**
 - The date by when the line will be brought into compliance.**

As addressed in the responses to 1 and 2 above, all lines over lakes listed in PURA § 38.004(b) meet the NESC Standard. Therefore, this question is not applicable.

AFFIDAVIT OF KIP M. FOX

STATE OF TEXAS §
 §
COUNTY OF TRAVIS §

BEFORE ME, the undersigned authority, on this day personally appeared Kip M. Fox, whose business address is 400 West 15th Street, Suite 800, Austin, Texas 78701 who being by me first duly sworn, on oath, deposed and said the following:
